

EV AUTO-Enhancer™ IIS Installation.

Comodo EV AUTO-Enhancer™ - Automatic EV Deployment and Maintenance Technology If you have not already done so, please download the [IIS file for your web server](#).

Please note, at July 2007, this technology works on Windows Server 2000 and 2003 only.

When deploying EV AUTO-Enhancer™ with IIS, you install the IIS plug-in downloaded above.

1. Run the .exe from the zip file
2. Choose the destination folder, the default is : \Program Files\Comodo\IIS EV AUTO-Enhancer
3. Select 'Next' and the AUTO-Enhancer™ is installed

NOTE: The last part of the install of the IIS plug-in will restart the IIS.
